

KENSINGTON DIVERSIFIED BALANCED (GBP)

Investment Strategy

The sub-fund invests directly or indirectly in equities, fixed income securities, property and commodities, money market instruments and equity-related securities. Up to 80% of its assets may be directly invested in equities and equity-related securities and up to 80% may be indirectly invested via UCITS and/or open-ended AIFs for exposure to commodities such as oil, gas, gold and precious metals.

The sub-fund may also gain indirect exposure to property through investment in the securities of Real Estate Investment Trusts (REITs). The sub-fund may hold cash.

Investor Profile

The sub-fund is suitable for retail and institutional investors seeking a medium to long term investment with a medium to high tolerance for volatility.

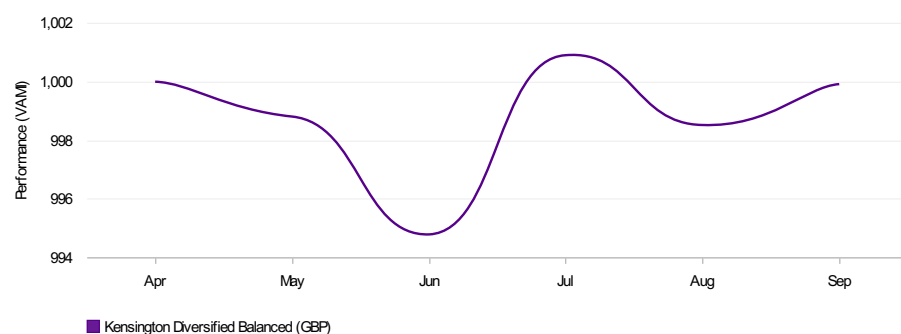

Monthly Market Information

- Global equity markets proved resilient in the face of mounting political, trade and monetary policy headwinds
- European equity markets were broadly flat during September
- UK equity markets were broadly unchanged during September
- Concerns about Chinese economic growth continued whilst the China-US trade war escalated
- Government bond yields rose during September as concerns over emerging markets abated
- The European Union (EU) rejected the Prime Minister's Chequers plan towards month-end, leading the pound weaker versus the US dollar and euro
