

KENSINGTON DIVERSIFIED GROWTH (GBP)

Investment Strategy

The sub-fund invests directly or indirectly in equities, fixed income securities, property and commodities, money market instruments and equity-related securities. Up to 80% of its assets may be directly invested in equities and equity-related securities and up to 100% may be indirectly invested via UCITS and/or open-ended AIFs for exposure to commodities such as oil, gas, gold and precious metals.

The sub-fund may also gain indirect exposure to property through investment in the securities of Real Estate Investment Trusts (REITs). The sub-fund may hold cash.

Investor Profile

The sub-fund is suitable for retail and institutional investors seeking a medium to long term investment with a medium to high tolerance for volatility.

Monthly Market Information

- A host of headwinds combined to make the December slump among the worst in history
- The December crash rounded off the worst year for markets since the global financial crisis
- China's economic growth concerns added to market woes
- Equity markets were led lower by the US and political turmoil in Washington
- The UK Prime Minister survived and no confidence vote, securing her leadership of the Conservative party for another 12 months
- Slowing global growth and continuing trade frictions between US and China show no signs of abating
- The US Federal Reserve revised lower its expectation for future interest rate rises
